

NAS 2024 Call for Papers

The 17th IEEE International Conference on
Networking, Architecture and Storage (NAS 2024, sponsored by the IEEE)

ZhuHai, GuangDong, China, Nov.9-11, 2024, nas-conf.org

General Chair:

Weimin Zheng, Tsinghua University
Dan Feng, HUST

General Co-Chairs:

Onur Mutlu, ETH
Nong Xiao, SYSU
Xian-he Sun, Illinois Tech

Programing Chairs:

Shuibing He, ZJU
Liang Shi, ECNU
Suren Byna, OSU

Networking Track Chairs:

Ennan Zhai, Alibaba Cloud
Ruzica Piskac, Yale University

Architecture Track Chairs:

Wen Xia, Harbin Univ. (Shenzhen)
Weichen Liu, NTU

Storage Track Chairs:

Hua Wang, HUST
Jingtong Hu, Pitt

Local Arrangement Chair:

Congming Gao, Xiamen Univ.

Finance and Registration Co-Chairs:

Zhaoyan Shen, Shandong Univ.

Publication Chair and IEEE Liaison:

Weijun Xiao, Virginia Commonwealth Univ.

Web Chairs:

Shouzheng Gu, ECNU
Jianhui Yue, MTU

Publicity Co-Chairs:

Chundong Wang, ShangTech.
Xianzhang Chen, CQU
Yu Liu, HUST

Steering Committee:

Xubin He, Chair, Temple University
Ke Zhou, HUST
Laxmi N. Bhuyan, Univ. of California Riverside
Chita Das, Penn State
Hong Jiang, Univ. of Texas Arlington
Changsheng Xie, HUST, China
Qing Yang, Univ. of Rhode Island

The International Conference on Networking, Architecture, and Storage provides a high-quality international forum to bring together researchers and practitioners from academia and industry to discuss cutting-edge research on networking, high-performance computer architecture, and parallel and distributed data storage technologies. NAS 2024 will expose participants to the most recent developments in the interdisciplinary areas.

Each submission can be either a regular paper (up to 8 pages) or a short paper (up to 4 pages), including all text, figures, tables, footnotes, appendices, references, etc. Authors are invited to submit previously unpublished work for possible presentation at the conference. The program committee will nominate best papers for recognition in the three conference topic areas. All papers will be evaluated based on their novelty, fundamental insight, experimental evaluation, and potential for long-term impact; new-idea papers are encouraged. All accepted papers will be published in IEEE digital library. Selected and extended papers will be recommended for journal publications.

- Accelerator-based architectures
- Ad hoc and sensor networks
- Application-specific, reconfigurable (FPGA) or embedded architectures
- Architecture for handheld or mobile devices
- Architecture, networking or technologies storage modeling and simulation methodologies
- Big Data infrastructure
- Big Data services and analytics
- Cloud computing and storage
- Augmented/Virtual Reality arch
- Data-center scale architectures
- Effects of circuits and emerging technology on architecture
- Hardware security
- File systems, object-based
- Storage performance and scalability
- GPU architecture and programming
- Quantum computing
- Mobile and wireless networks
- Network applications and services
- Network architecture and protocols
- Network information theory
- Network modeling and measurement
- Network security
- Non-volatile memory
- Parallel and multi-core architectures
- Parallel I/O
- Power and energy efficient architectures and techniques
- Processor, cache, memory system architectures
- Software defined networking
- Software defined storage
- SSD architecture and applications
- Storage management
- Storage virtualization and security
- Virtual and overlay networks

Important Dates:

Paper submission deadline: **July 15, 2024**

Author notification: **September 1, 2024**

Camera-ready submission: **September 22, 2024**
